Key Terms	
Strategic Plan Review	The Coalition is completing a new two-year strategic plan using data to target local risk-factors that influence substance use and other behavioral problems. The Logic Model and Action Plan are our backbone summary documents that lay out the roadmap for the Coalition’s work. Our funder holds us accountable to performing the work described in these documents.
Coalition Assessment Tool	Annual Coalition Member survey to identify coalition strengths and challenges. Survey data directly informs how we shape Coalition Meetings to make them most relevant for all members.
